Celebrating 25+ Years of Innovation

- Headquartered in Santa Clara, CA
- Fabless semiconductor company
- Spun out from SST in May 2010
- ISO 9001: 2015 certified
- Global reach and worldwide support

Trusted Solid State Drive (SSD) Technology

- Broad portfolio of NANDrive™ ball grid array (BGA) and ArmourDrive™ removable SSDs for long-life applications and extreme environments
- Advanced NAND management hardware and firmware optimized for performance and reliability
- 50K, 100K and 250K+ endurance enabled by EnduroSLC™ Technology

High Reliability Industrial Enterprise Storage Products

- G-card® NVMe PCIe flash cards with G-dash® software tools for demanding enterprise and internet datacenter applications
- Ideal for mission critical, I/O intensive environments
- Sustainable low latency and high IOPS performance
- Enterprise-grade data integrity with end-to-end data protection

Specialty Flash Memory

- Based on SST's patented SuperFlash® technology used in more than 90 billion devices
- Superior reliability, fast read and low power consumption
- More than 100 years data retention
- Widely adopted by major chipset vendors

By leveraging more than 25 years of solid state storage design expertise, Greenliant is dedicated to developing durable, reliable and secure storage solutions for embedded systems and enterprise datacenters. The company is headquartered in Silicon Valley with product development centers in Santa Clara, Beijing, Shanghai, Xiamen and Hsinchu.

Founded in April 2010 by former SST (Silicon Storage Technology, Inc.) chairman and CEO, Bing Yeh, Greenliant is a major supplier of solid state storage, controller and flash memory products to leading automotive, industrial and networking companies.†

†In May 2010, Greenliant Systems acquired the NANDrive, NAND Controller and Specialty Flash Memory assets of SST, a wholly owned subsidiary of Microchip Technology, Inc.
